

Greehey Family Foundation and NuStar Foundation Contribute \$300,000 to American Red Cross

November 22, 2013

SAN ANTONIO--(BUSINESS WIRE)--Nov. 22, 2013-- The Greehey Family Foundation and the NuStar Foundation announced today that they'll give a total of \$300,000 to the American Red Cross to support the relief efforts underway after natural disasters in the Philippines and the Midwest U.S. This gift will help provide resources in the Philippines where a massive typhoon tore a path through the islands, and in Michigan, Indiana and Illinois where tornadoes wreaked havoc this past Sunday.

This gift is part of the SA Hearts Philippines initiative being organized by the Alamo Asian American Chamber of Commerce. They have established a consortium of local civic organizations and businesses, including the Organization of Filipinos in Texas (OFT), to support the American Red Cross' relief efforts in the Philippines. They plan to hold a ceremony on December 14 so all of the donors can present their checks to local American Red Cross representatives.

"We're proud to support the American Red Cross and its efforts to provide critical aid to everyone impacted by these natural disasters," said Bill Greehey, Chairman of NuStar and the Greehey Family Foundation. "One of the best ways that we can help the victims and their loved ones is by keeping them in our thoughts and prayers during this incredibly difficult time. Hopefully, our support and donations will help lift up these communities and put them on the road to recovery."

Curt Anastasio, President and CEO of NuStar, praised the American Red Cross and the NuStar employees saying, "The Red Cross volunteers are the true heroes as they are saving and changing lives through the critical work they are doing in these regions. And of course, our NuStar employees are our heroes, as they contribute their time and resources to help countless worthy causes day in and day out in all of our communities and beyond. Without a doubt, we have the most generous employees in corporate America as they always answer the call to help."

All of the funds raised will be used by the American Red Cross to support its relief efforts, which include providing shelter, food, emotional support and other assistance in response to disasters.

About NuStar Energy L.P.

NuStar Energy L.P., a publicly traded master limited partnership based in San Antonio, is one of the largest independent liquids terminal and pipeline operators in the nation. NuStar currently has 8,643 miles of pipeline; 87 terminal and storage facilities that store and distribute crude oil, refined products and specialty liquids; and 50% ownership in a joint venture that owns a terminal and an asphalt refinery with a throughput capacity of 74,000 barrels per day. The partnership's combined system has approximately 97 million barrels of storage capacity, and NuStar has operations in the United States, Canada, Mexico, the Netherlands, including St. Eustatius in the Caribbean, the United Kingdom and Turkey.
