#### 1. ORGANIZATION AND BASIS OF PRESENTATION

#### **Organization and Operations**

NuStar Energy L.P. (NuStar Energy) (NYSE: NS) is engaged in the terminalling and storage of petroleum products, the transportation of petroleum products and anhydrous ammonia, and petroleum refining and marketing. Unless otherwise indicated, the terms "NuStar Energy," "the Partnership," "we," "our" and "us" are used in this report to refer to NuStar Energy L.P., to one or more of our consolidated subsidiaries or to all of them taken as a whole. NuStar GP Holdings, LLC (NuStar GP Holdings) (NYSE: NSH) owns our general partner, Riverwalk Logistics, L.P., and owns a 16.2% total interest in us as of June 30, 2012.

We conduct our operations through our subsidiaries, primarily NuStar Logistics, L.P. (NuStar Logistics) and NuStar Pipeline Operating Partnership L.P. (NuPOP). We have three business segments: storage, transportation, and asphalt and fuels marketing.

#### **Basis of Presentation**

These unaudited condensed consolidated financial statements include the accounts of the Partnership and subsidiaries in which the Partnership has a controlling interest. Noncontrolling interests are separately disclosed on the financial statements. Inter-partnership balances and transactions have been eliminated in consolidation. We account for investments in 50% or less-owned entities using the equity method.

These unaudited condensed consolidated financial statements have been prepared in accordance with United States generally accepted accounting principles (GAAP) for interim financial information and with the instructions to the Quarterly Report on Form 10-Q and Article 10 of Regulation S-X of the Securities Exchange Act of 1934. Accordingly, they do not include all of the information and notes required by GAAP for complete consolidated financial statements. In the opinion of management, all adjustments considered necessary for a fair presentation have been included, and all disclosures are adequate. All such adjustments are of a normal recurring nature unless disclosed otherwise. Financial information for the three and six months ended June 30, 2012 and 2011 included in these Condensed Notes to Consolidated Financial Statements is derived from our unaudited condensed consolidated financial statements. Operating results for the three and six months ended June 30, 2012 are not necessarily indicative of the results that may be expected for the year ending December 31, 2012. The consolidated balance sheet as of December 31, 2011 has been derived from the audited consolidated financial statements as of that date. These unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in our Annual Report on Form 10-K for the year ended December 31, 2011.

#### 2. ASSETS HELD FOR SALE AND ASSET IMPAIRMENTS

Asphalt Operations. On July 3, 2012, we entered into an agreement with an affiliate of Lindsay Goldberg LLC (Lindsay Goldberg), a private investment firm, to create a joint venture that will own and operate NuStar Energy's asphalt refining assets, including the asphalt refineries located in Paulsboro, New Jersey and Savannah, Georgia (collectively, the Asphalt Operations). NuStar Energy and Lindsay Goldberg will each have a 50% voting interest in NuStar Asphalt LLC (Asphalt JV), currently a wholly owned subsidiary of NuStar Energy, which was formed for the purpose of entering into this joint venture and which will own all the assets of the Asphalt Operations. Lindsay Goldberg will pay \$175.0 million for the Class A equity interests (Class A Interests) of Asphalt JV, while we will retain the Class B equity interests (Class B Interests) of Asphalt JV. The Class A Interests will have a distribution preference over the Class B Interests, as well as a liquidation preference.

At the time of closing, Asphalt JV will purchase the inventory of the Asphalt Operations from NuStar Energy at market prices. Asphalt JV intends to fund the purchase of those inventories with proceeds from borrowings under a third-party asset-based revolving credit facility (Third-Party Financing) and an unsecured revolving credit facility provided by NuStar Energy (NuStar Facility). The NuStar Facility will also be available to fund working capital needs of Asphalt JV in an aggregate principal amount not to exceed \$250.0 million for a term of seven years. In addition, during the term of the NuStar Facility, NuStar Energy has agreed to provide guarantees or credit support, as applicable, of up to \$150.0 million for operating contracts assumed by Asphalt JV related to the Asphalt Operations. NuStar Energy also expects to enter into an administrative services agreement, a terminal lease agreement and a crude oil supply agreement with Asphalt JV.

This transaction is expected to close in the third quarter of 2012, subject to the consummation of the Third-Party Financing and the NuStar Facility, as well as the satisfaction of certain other customary closing conditions, such as regulatory approval. Upon closing, we expect to deconsolidate Asphalt JV and prospectively report our remaining investment in Asphalt JV using the equity method of accounting. Therefore, as of June 30, 2012, we have presented the assets related to the Asphalt Operations as "Assets held for sale" on the consolidated balance sheet. Because of our expected continued involvement with Asphalt JV discussed above, we have not presented the results of operations for the Asphalt Operations as discontinued operations.

Asset Impairments. In connection with our expected sale of 50% of Asphalt JV, we evaluated the goodwill and other long-lived assets associated with the Asphalt Operations for potential impairment. As of June 30, 2012, we estimated the fair value of the Asphalt Operations reporting unit as the sum of (i) the purchase price to be paid by Lindsay Goldberg for the Class A Interests of Asphalt JV, (ii) the fair value of the Class B Interests of Asphalt JV that we would retain and (iii) the fair value of the working capital, primarily inventory. We determined the fair value of the Class B Interests using a combination of estimated discounted future cash flows and a pricing model. The fair value of the working capital was based on estimated current market prices. The estimated fair value of the Asphalt Operations reporting unit was less than its carrying value, which resulted in the recognition of a goodwill impairment loss of \$22.1 million in the second quarter of 2012. In addition, in the second quarter of 2012, we recorded an asset impairment loss of \$244.2 million in order to write-down the carrying value of long-lived assets related to the Asphalt Operations, including fixed assets, intangible assets and other long-term assets to their estimated fair value. The goodwill impairment loss and the asset impairment loss related to the Asphalt Operations is reported in the asphalt and fuels marketing segment.

In the second quarter of 2012, we reduced the carrying value of the fixed assets of one of our refined product terminals to its estimated fair value and recorded an asset impairment loss of \$2.1 million. The impairment loss resulted from changing market conditions that reduced the estimated cash flows for that terminal. The impairment loss associated with this refined product terminal was reported in the storage segment. In addition, we recorded an asset impairment loss of \$3.3 million in the second quarter of 2012 in order to reduce the carrying value of certain corporate assets we intend to sell to their estimated sales price.

The total asset impairment loss consisted of the following:

	Three and Six Month Ended June 30, 2012	
	(Thousa	nds of Dollars)
Asphalt Operations		
Property, plant and equipment, net	\$	232,759
Intangible assets, net		6,564
Other long-term assets, net		4,902
Asset impairment loss		244,225
<u>Other</u>		
Property, plant and equipment, net		5,421
Total asset impairment loss	\$	249,646

Assets Held for Sale. As of June 30, 2012, we reclassified the assets of the Asphalt Operations and certain corporate assets we intend to sell as "Assets held for sale" on the consolidated balance sheet. The total assets held for sale consisted of the following:

	June 30, 2012	
	(Thousan	ids of Dollars)
Asphalt Operations		
Inventories	\$	410,977
Other current assets		135
Property, plant and equipment, net		204,946
Other long-term assets, net		22,054
Assets held for sale		638,112
<u>Other</u>		
Property, plant and equipment, net		2,847
Total assets held for sale	\$	640,959

#### 3. DISPOSITIONS

On April 16, 2012, we sold five terminals in Georgia and Alabama with an aggregate storage capacity of 1.8 million barrels for total proceeds of \$30.8 million.

#### 4. INVENTORIES

Inventories consisted of the following:

		June 30, 2012																				ecember 31, 2011
		(Thousands of Dollars)																				
Crude oil	\$	23,013	\$	157,297																		
Finished products		223,608		421,288																		
Materials and supplies		6,989		9,200																		
Total	\$	253,610	\$	587,785																		

#### 5. DEBT

#### **Revolving Credit Agreements**

On May 2, 2012, NuStar Logistics replaced the \$1.2 billion five-year revolving credit agreement (the 2007 Revolving Credit Agreement) with a new \$1.5 billion five-year revolving credit agreement (the 2012 Revolving Credit Agreement), which includes the ability to borrow up to the equivalent of \$250.0 million in Euros. NuStar Logistics used borrowings of \$588.6 million under the 2012 Revolving Credit Agreement and cash on hand to repay in full the balance on the 2007 Revolving Credit Agreement. Obligations under the 2012 Revolving Credit Agreement are guaranteed by NuStar Energy and NuPOP. NuPOP will be released from its guarantee of the 2012 Revolving Credit Agreement when it no longer guarantees NuStar Logistics public debt instruments.

The 2012 Revolving Credit Agreement contains customary restrictive covenants, including requiring us to maintain, as of the end of each rolling period, consisting of any period of four consecutive fiscal quarters, a consolidated debt coverage ratio (consolidated indebtedness to consolidated EBITDA, as defined in the 2012 Revolving Credit Agreement) not to exceed 5.00-to-1.00; provided, for the rolling period ending June 30th of each year, the maximum consolidated debt coverage ratio will increase to 5.50-to-1.00. Moreover, if we consummate an acquisition for an aggregate net consideration of at least \$50.0 million, the maximum consolidated debt coverage ratio will increase to 5.50-to-1.00 for two rolling periods.

On June 29, 2012, we amended the 2012 Revolving Credit Agreement to permit unlimited investments in joint ventures and unconsolidated subsidiaries, provided that no default exists, and to modify the consolidated debt coverage ratio to include up to 20% of cash distributions for such joint ventures and unconsolidated subsidiaries (the Amendment). In addition, the Amendment provides that we will be in compliance with the consolidated debt coverage ratio as long as it does not exceed 6.50-to-1.00 for the rolling period ended June 30, 2012 or 6.00-to-1.00 for the rolling period ending September 30, 2012. However, the consolidated debt coverage ratio will revert to a maximum of 5.00-to-1.00 for any four consecutive quarters, if our Asphalt Operations are owned by an unconsolidated joint venture. The requirement not to exceed a maximum consolidated debt coverage ratio may limit the amount we can borrow under the 2012 Revolving Credit Agreement to an amount less than the total amount available for borrowing. As of June 30, 2012, our consolidated debt coverage ratio was 6.0x, and we had \$668.4 million available for borrowing.

During the six months ended June 30, 2012, we borrowed an aggregate \$1,332.9 million under our revolving credit agreements to fund working capital requirements, our capital expenditures and distributions. Additionally, we repaid \$1,009.9 million during the six months ended June 30, 2012 under our revolving credit agreements. These borrowings and repayments include borrowings under the 2012 Revolving Credit Agreement to pay down the 2007 Revolving Credit Agreement.

The 2012 Revolving Credit Agreement bears interest, at our option, based on either an alternative base rate or a LIBOR-based rate. The interest rate on the 2012 Revolving Credit Agreement is subject to adjustment if our debt rating is downgraded (or subsequently upgraded) by certain credit rating agencies. As of June 30, 2012, our weighted average borrowing interest rate was 1.9%.

#### **UK Term Loan**

On June 29, 2012, our UK subsidiary, NuStar Terminals Limited, amended the £21.0 million amended and restated term loan agreement (the UK Term Loan) to be consistent with the covenant terms of the 2012 Revolving Credit Agreement. As a result of this amendment to the UK Term Loan, the covenants and ratios of the UK Term Loan are substantially the same as the 2012 Revolving Credit Agreement, as amended.

#### NuStar Logistics' 4.75% Senior Notes

On February 2, 2012, NuStar Logistics issued \$250.0 million of 4.75% senior notes under our May 13, 2010 shelf registration statement. The net proceeds of \$247.4 million were used to repay the outstanding principal amount of NuPOP's 7.75% senior notes due February 15, 2012. The interest on the 4.75% senior notes is payable semi-annually in arrears on February 1 and August 1 of each year beginning on August 1, 2012. The notes will mature on February 1, 2022. The 4.75% senior notes do not have sinking fund requirements. These notes rank equally with existing senior unsecured indebtedness of NuStar Logistics and contain restrictions on NuStar Logistics' ability to incur secured indebtedness unless the same security is also provided for the benefit of holders of the senior notes. In addition, the senior notes limit NuStar Logistics' ability to incur indebtedness secured by certain liens and to engage in certain sale-leaseback transactions. At the option of NuStar Logistics, the 4.75% senior notes may be redeemed in whole or in part at any time at a redemption price, which includes a make-whole premium, plus accrued and unpaid interest to the redemption date. The 4.75% senior notes are fully and unconditionally guaranteed by NuStar Energy and NuPOP.

#### **Gulf Opportunity Zone Revenue Bonds**

In 2008, 2010 and 2011, the Parish of St. James, Louisiana issued, pursuant to the Gulf Opportunity Zone Act of 2005, tax-exempt revenue bonds (GoZone Bonds) associated with our St. James terminal expansions. The GoZone Bonds bear interest based on a weekly tax-exempt bond market interest rate, and we pay interest monthly. The interest rate was 0.2% as of June 30, 2012. The proceeds are deposited with a trustee and disbursed to us upon our request for reimbursement of expenditures related to our St. James terminal expansions. We include the amount remaining in trust related to the GoZone Bonds in "Other long-term assets, net," and the amount of bonds issued in "Long-term debt, less current portion" on the consolidated balance sheets. For the six months ended June 30, 2012, we received \$34.5 million from the trustee. As of June 30, 2012, the amount remaining in trust totaled \$138.9 million.

## Subsequent Events

*NuStar Logistics*' 6.875% Senior Notes. In July 2012, we repaid the \$100.0 million of 6.875% senior notes due July 15, 2012 with borrowings under our 2012 Revolving Credit Agreement. As the senior notes were refinanced using long-term debt, the \$100.0 million principal balance was moved from "Current portion of long-term debt" to "Long-term debt, less current portion" in our consolidated balance sheet as of June 30, 2012.

*Line of Credit.* On July 2, 2012, our short-term line of credit that had an uncommitted borrowing capacity of up to \$20.0 million was terminated. During the six months ended June 30, 2012, we borrowed and repaid \$71.9 million related to this line of credit.

Credit Ratings. The interest rates on the 2012 Revolving Credit Agreement and NuStar Logistics' \$350.0 million of 7.65% senior notes are subject to adjustment if our debt rating is downgraded (or subsequently upgraded) by certain credit rating agencies. In July 2012, Standard & Poor's lowered our credit rating to BB+ from BBB- and revised the outlook to Stable. The interest rates applicable to the 2012 Revolving Credit Agreement do not adjust unless both Moody's and Standard & Poor's change their ratings. However, the downgrade by Standard & Poor's caused the interest rate on NuStar Logistics' \$350.0 million of 7.65% senior notes to increase by 0.25%. This downgrade may also require us to provide additional credit support for certain contracts.

#### 6. COMMITMENTS AND CONTINGENCIES

#### **Contingencies**

We have contingent liabilities resulting from various litigation, claims and commitments, as discussed below. We record accruals for loss contingencies when losses are considered probable and can be reasonably estimated. Legal fees associated with defending the Partnership in legal matters are expensed as incurred. As of June 30, 2012, we have accrued \$13.3 million for contingent losses. The amount that will ultimately be paid related to these matters may differ from the recorded accruals, and the timing of such payments is uncertain.

*Grace Energy Corporation Matter.* In 1997, Grace Energy Corporation (Grace Energy) sued subsidiaries of Kaneb Pipeline Partners, L.P. (KPP) and Kaneb Services LLC (KSL and collectively with KPP and their respective subsidiaries, Kaneb) in Texas state court. We acquired Kaneb on July 1, 2005. The complaint sought recovery of the cost of remediation of fuel leaks in the 1970s from a pipeline that had once connected a former Grace Energy terminal with Otis Air Force Base in Massachusetts (Otis AFB). Grace Energy alleges the Otis AFB pipeline and related environmental liabilities had been transferred in 1978 to an entity that was part of Kaneb's acquisition of Support Terminal Services, Inc. and its subsidiaries from Grace Energy in 1993. Kaneb contends that it did not acquire the Otis AFB pipeline and never assumed any responsibility for any associated environmental damage.

In 2000, the court entered final judgment that: (i) Grace Energy could not recover its own remediation costs of \$3.5 million, (ii) Kaneb owned the Otis AFB pipeline and its related environmental liabilities and (iii) Grace Energy was awarded \$1.8 million in attorney costs. Both Kaneb and Grace Energy appealed the final judgment of the trial court to the Texas Court of Appeals in Dallas. In 2001, Grace Energy filed a petition in bankruptcy, which created an automatic stay of actions against Grace Energy. In September 2008, Grace Energy filed its Joint Plan of Reorganization and Disclosure Statement.

The Otis AFB is a part of a Superfund Site pursuant to the Comprehensive Environmental Response Compensation and Liability Act (CERCLA). The site contains a number of groundwater contamination plumes, two of which are allegedly associated with the Otis AFB pipeline. Relying on the final judgment of the Texas state court assigning ownership of the Otis AFB pipeline to Kaneb, the United States Department of Justice (the DOJ) advised Kaneb in 2001 that it intends to seek reimbursement from Kaneb for the remediation costs associated with the two plumes. In November 2008, the DOJ forwarded information to us indicating that the past and estimated future remediation expenses associated with one plume are \$71.9 million. We reached an agreement to settle the claims of the United States government with respect to the Otis AFB pipeline and to resolve the underlying dispute between Kaneb and Grace. The settlement was approved by the United States Bankruptcy Court for the District of Delaware and a consent decree was entered by the United States District Court for the District of Massachusetts. Pursuant to the terms of the settlement, we paid approximately \$13.1 million to the United States government in July 2012 and received releases of claims from various private parties and a covenant not to sue from the United States government. In connection with the settlement, we recognized a gain of \$28.7 million during the second quarter of 2012.

#### Other

We are a party to additional claims and legal proceedings arising in the ordinary course of business. Due to the inherent uncertainty of litigation, there can be no assurance that the resolution of any particular claim or proceeding would not have a material adverse effect on our results of operations, financial position or liquidity.

## 7. FAIR VALUE MEASUREMENTS

We segregate the inputs used in measuring fair value into three levels: Level 1, defined as observable inputs such as quoted prices in active markets; Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable; and Level 3, defined as unobservable inputs in which little or no market data exists. We consider counterparty credit risk and our own credit risk in the determination of all estimated fair values.

#### **Recurring Fair Value Measurements**

Product Imbalances. We value our assets and liabilities related to product imbalances using quoted market prices in active markets as of the reporting date.

*Interest Rate Swaps*. We estimate the fair value of both our fixed-to-floating and forward-starting interest rate swaps using discounted cash flows, which use observable inputs such as time to maturity and market interest rates.

Commodity Derivatives. We base the fair value of certain of our commodity derivative instruments on quoted prices on an exchange; accordingly, we include these in Level 1 of the fair value hierarchy. We also have derivative instruments for which we determine fair value using industry pricing services and other observable inputs, such as quoted prices on an exchange for similar derivative instruments. Therefore, we include these derivative instruments in Level 2 of the fair value hierarchy. We have consistently applied these valuation techniques in all periods presented. See Note 8. Derivatives and Risk Management Activities for a discussion of our derivative instruments.

The following assets and liabilities are measured at fair value:

		June 30, 2012					
		Level 1		Level 2	Level 3		Total
				(Thousands o	of Dollars)		
Other current assets:							
Product imbalances	\$	448	\$	_	\$ —	\$	448
Commodity derivatives		44,605		1,270	_		45,875
Other long-term assets, net:							
Commodity derivatives		_		9,096	_		9,096
Accrued liabilities:							
Product imbalances		(450)		_	_		(450)
Commodity derivatives		(26,790)		(10,347)	_		(37,137)
Interest rate swaps		_		(37,291)	_		(37,291)
Other long-term liabilities:							
Commodity derivatives		_		(1,345)	_		(1,345)
Total	\$	17,813	\$	(38,617)	\$ —	\$	(20,804)

	 December 31, 2011				
	 Level 1	Level 2	Level 3		Total
		(Thousar	nds of Dollars)		
Other current assets:					
Product imbalances	\$ 2,117	\$ —	- \$ —	- \$	2,117
Commodity derivatives	10,282	1,830	_		12,112
Other long-term assets, net:					
Commodity derivatives	_	27,084	· —		27,084
Interest rate swaps	_	2,335	;		2,335
Accrued liabilities:					
Product imbalances	(1,469)	<u> </u>	_	-	(1,469)
Commodity derivatives	(5,424)	_	_		(5,424)
Interest rate swaps	_	(22,009	))	-	(22,009)
Other long-term liabilities:					
Interest rate swaps	_	(27,190	)) —		(27,190)
Total	\$ 5,506	\$ (17,950	s —	\$	(12,444)

#### Non-recurring Fair Value Measurements

The following assets are measured at fair value on a non-recurring basis:

	June 30, 2012				
	Level 1	Level 2	Level 3		Total
	(Thousands of Dollars)				
Long-lived assets held for sale - Asphalt Operations	_	_ :	227,000	\$	227,000
Long-lived assets held for sale - other	_	_ :	2,847	\$	2,847

We estimated the fair value of the long-lived assets associated with our Asphalt Operations reporting unit as the sum of the purchase price to be paid by Lindsay Goldberg for the Class A Interests of Asphalt JV and the fair value of the Class B Interests of Asphalt JV that we would retain. We determined the fair value of the Class B Interests using a combination of valuation methods, including an income approach method, a market approach method and an option model. The significant inputs used in the income approach method include estimated future cash flows and a discount rate equal to the estimated weighted average cost of capital of 14.0%. Inputs used in the market approach method include observable multiples applied to key financial statistics derived from peer companies. Inputs to the option model include an underlying asset value, a five-year expected date of liquidity, a discount rate of 0.7%, an expected volatility of 62.0% and exercise prices consistent with the distribution and liquidation rights for the Class A Interests and Class B Interests. The other long-lived assets held for sale in the table above represent certain corporate assets that we wrote down to their estimated sales price. See Note 2. Assets Held for Sale and Asset Impairments for additional discussion on our plan to sell 50% of the Asphalt Operations.

#### Fair Value of Financial Instruments

We recognize cash equivalents, receivables, payables and debt in our consolidated balance sheets at their carrying amount.

The fair values of these financial instruments, except for debt, approximate their carrying amounts. The estimated fair value and carrying amount of our debt was as follows:

	:	June 30, 2012	ecember 31, 2011	
		(Thousands of Dollars)		
Fair value	\$	2,648,915	\$	2,377,565
Carrying amount	\$	2,624,868	\$	2,293,030

We estimated the fair value of our publicly-traded senior notes based upon quoted prices in active markets; therefore, we determined the fair value of our publicly traded senior notes falls in Level 1 of the fair value hierarchy. For our other debt, for which a quoted market price is not available, we estimated the fair value using a discounted cash flow analysis using current incremental borrowing rates for similar types of borrowing arrangements and determined the fair value falls in Level 2 of the fair value hierarchy.

## 8. DERIVATIVES AND RISK MANAGEMENT ACTIVITIES

We utilize various derivative instruments to: (i) manage our exposure to commodity price risk; (ii) manage our exposure to interest rate risk; and (iii) attempt to profit from market fluctuations. Our risk management policies and procedures are designed to monitor interest rates, futures and swap positions and overthe-counter positions, as well as physical volumes, grades, locations and delivery schedules, to help ensure that our hedging activities address our market risks. Our risk management committee oversees our trading controls and procedures and certain aspects of our commodity and trading risk management. Our risk management committee also reviews all new commodity and trading risk management strategies in accordance with our risk management policy, which was approved by our board of directors.

## Interest Rate Risk

We are a party to certain interest rate swap agreements to manage our exposure to changes in interest rates. We entered into fixed-to-floating interest rate swap agreements associated with a portion of our fixed-rate senior notes. During the six months ended June 30, 2012, we entered into and terminated fixed-to-floating interest rate swap agreements with an aggregate notional amount of \$200.0 million related to the 4.75% senior notes issued on February 2, 2012. Under the terms of these interest rate swap agreements, we received a fixed 4.75% and paid a variable rate based on one month USD LIBOR plus a percentage that varied with each agreement. We also terminated fixed-to-floating interest rate swap agreements with an aggregate notional amount of \$270.0 million associated with our 4.80% senior notes. We received \$19.7 million in connection with the terminations, which we are amortizing into "Interest expense, net" over the remaining lives of the 4.80% and 4.75% senior

notes. We had no fixed-to-floating interest rate swaps as of June 30, 2012, and the total aggregate notional amount of the fixed-to-floating interest rate swaps was \$270.0 million as of December 31, 2011.

We are also a party to forward-starting interest rate swap agreements related to forecasted probable debt issuances. We entered into these swaps in order to hedge the risk of changes in the interest payments attributable to changes in the benchmark interest rate during the period from the effective date of the swap to the issuance of the forecasted debt. These swaps are designated and qualify as cash flow hedges. In connection with the issuance of the 4.75% senior notes on February 2, 2012, we terminated forward-starting interest rate swap agreements with an aggregate notional amount of \$225.0 million. We paid \$25.4 million in connection with the terminations, which is being amortized into "Interest expense, net" over the life of the 4.75% senior notes. The termination payment is included in cash flows from financing activities on the consolidated statements of cash flows. As of June 30, 2012 and December 31, 2011, the total aggregate notional amount of the forward-starting interest rate swaps was \$275.0 million and \$500.0 million, respectively.

#### Commodity Price Risk

We are exposed to market risks related to the volatility of crude oil and refined product prices. In order to reduce the risk of commodity price fluctuations with respect to our crude oil and finished product inventories and related firm commitments to purchase and/or sell such inventories, we utilize commodity futures and swap contracts, which qualify and we designated them as fair value hedges.

We also enter into commodity swap contracts to hedge the price risk associated with the San Antonio refinery. These contracts fix the purchase price of crude oil and sales prices of refined products for a portion of the expected production of the San Antonio refinery, thereby attempting to mitigate the risk of volatility of future cash flows associated with hedged volumes. These contracts qualify and we designated them as cash flow hedges. During the second quarter of 2012, we reduced the hedged volumes of the expected production of the San Antonio refinery, thereby exposing us to additional price risk.

Derivatives that are intended to hedge our commodity price risk, but fail to qualify as fair value or cash flow hedges, are considered economic hedges, and we record associated gains and losses from such derivatives in net income. We also enter into commodity derivatives in order to attempt to profit from market fluctuations. These derivative instruments are financial positions entered into without underlying physical inventory and are not considered hedges. Changes in the fair values are recorded in net income.

The volume of commodity contracts is based on open derivative positions and represents the combined volume of our long and short positions on an absolute basis, which totaled 32.0 million barrels and 27.8 million barrels as of June 30, 2012 and December 31, 2011, respectively.

The fair values of our derivative instruments included in our consolidated balance sheets were as follows:

			Asset D	erivativ	ves		Liability 1	Derivatives			
	Balance Sheet Location	Ju	me 30, 2012	Dece	ember 31, 2011		June 30, 2012	Dec	cember 31, 2011

For derivatives designated as cash flow hedging instruments, once a hedged transaction occurs, we reclassify the effective portion from accumulated OCI to "Cost of product sales" or "Interest expense, net." As of June 30, 2012, we expect to reclassify a loss of \$9.1 million to "Cost of product sales" and a loss of \$2.5 million to "Interest expense, net" within the next twelve months. The maximum length of time over which we are hedging our exposure to the variability in future cash flows is approximately three years for our commodity contracts and one year for our forward-starting interest rate swaps.

## 9. RELATED PARTY TRANSACTIONS

Our operations are managed by NuStar GP, LLC, the general partner of our general partner. Under a services agreement between NuStar Energy and NuStar GP, LLC, employees of NuStar GP, LLC perform services for our United States operations. Certain of our wholly owned subsidiaries employ persons who perform services for our international operations. Employees of NuStar GP, LLC provide services to both NuStar Energy and NuStar GP Holdings; therefore, we reimburse NuStar GP, LLC for all costs related to its employees, other than costs associated with NuStar GP Holdings. Related party revenues result from storage agreements between our Turkey subsidiary and the noncontrolling shareholder.

The following table summarizes information pertaining to related party transactions:

	 Three Months	Endec	d June 30,		June 30,		
	2012		2011		2012		2011
			(Thousand	s of Dol	lars)		
Revenues	\$ 788	\$	407	\$	1,485	\$	537
Operating expenses	\$ 37,101	\$	36,801	\$	76,033	\$	71,910
General and administrative expenses	\$ 13,360	\$	16,035	\$	32,529	\$	32,983

We had a payable to NuStar GP, LLC of \$17.6 million and \$6.7 million as of June 30, 2012 and December 31, 2011, respectively, with both amounts representing payroll, employee benefit plan expenses and unit-based compensation. We also had a long-term payable to NuStar GP, LLC as of June 30, 2012 and December 31, 2011 of \$15.1 million and \$14.5 million, respectively, related to amounts payable for retiree medical benefits and other post-employment benefits.

#### 10. OTHER EXPENSE

Other expense, net consisted of the following:

#### Allocations of Net Income

Cash distributions to

partners

Ending balance

Other

Our partnership agreement, as amended, sets forth the calculation to be used to determine the amount and priority of cash distributions that the common unitholders and the general partner will receive. The partnership agreement also contains provisions for the allocation of net income and loss to the unitholders and the general partner. For purposes of maintaining partner capital accounts, the partnership agreement specifies that items of income and loss shall be allocated among the partners in accordance with their respective percentage interests. Normal allocations according to percentage interests are made after giving effect to priority income allocations, if any, in an amount equal to incentive cash distributions allocated 100% to the general partner. The following table details the calculation of net income applicable to the general partner:

\$

12,848

## Cash Distributions

On May 11, 2012, we paid a quarterly cash distribution totaling \$89.1 million, or \$1.095 per unit, related to the first quarter of 2012. On July 27, 2012, we announced a quarterly cash distribution of \$1.095 per unit related to the second quarter of 2012. This distribution will be paid on August 10, 2012 to unitholders of record on August 7, 2012 and will total \$89.1 million.

The following table reflects the allocation of total cash distributions to the general and limited partners applicable to the period in which the distributions were earned:

	 Three Months	Ende	d June 30,	Six Months Ended June 30,					
	2012		2011		2012		2011		
		(	Thousands of Dollars, Ex	cept Pe	r Unit Data)				
General partner interest	\$ 1,782	\$	1,627	\$	3,564	\$	3,219

Total cash distributions	\$ 89,076	\$	81,339	\$	178,152	\$	160,955		
Cash distributions per unit applicable									
to limited partners	\$ 1.095	\$	1.095	\$	2.190	\$	2.170		

## 12. NET INCOME PER UNIT

We have identified the general partner interest and incentive distribution rights (IDR) as participating securities and use the two-class method when calculating the net income per unit applicable to limited partners, which is based on the weighted-average number of common units outstanding during the period. Basic and diluted net income per unit applicable to limited partners are the same because we have no potentially dilutive securities outstanding.

The following table details the calculation of earnings per unit:

		Three Months	Ended	June 30,	Six Months Ended June 30,				
		2012		2011		2012		2011	
			(Thous	sands of Dollars, Exc	ept Ur	nit and Per Unit Data)

Total deferred income tax liabilities	(54,671)		(58,090)
Net deferred income tax liability	\$ (31,596)	\$	(26,296)
Reported on the Consolidated Balance Sheets as:			
Deferred income tax asset	\$ _	\$	9,141
Deferred income tax liability	(31,596)		(35,437)
Net deferred income tax liability	\$ (31,596)	\$	(26,296)

#### **Grace Energy Corporation Matter**

In connection with the settlement of the Grace Energy Corporation matter, we recognized a pre-tax gain of \$28.7 million within one of our taxable subsidiaries. As a result, we recorded related income tax expense of \$10.1 million, resulting from the reduction of the related deferred income tax asset. See Note 6. Commitments and Contingencies for a discussion on the Grace Energy Corporation matter.

## Canadian Income Tax Audit

During the second quarter of 2012, we recorded \$1.0 million of additional income tax liability and \$2.2 million of interest and penalties associated with an ongoing Canadian income tax audit for the years 2006 through 2011. We also recorded \$1.3 million of Canadian withholding tax and \$0.7 million of interest and penalties associated with the withholding tax liability related to interest payments made from our Canadian subsidiaries to a United States entity from 2003 to 2009. We believe that adequate provisions for uncertainties related to the Canadian audits have been reflected in the financial statements.

## 15. SEGMENT INFORMATION

Our reportable business segments consist of storage, transportation, and asphalt and fuels marketing. Our segments represent strategic business units that offer different services and products. We evaluate the performance of each segment based on its respective operating income, before general and administrative expenses and certain non-segmental depreciation and amortization expense. General and administrative expenses are not allocated to the operating segments since those expenses relate primarily to the overall management at the entity level. Our principal operations include terminalling and storage of petroleum products, the transportation of petroleum products and anhydrous ammonia, and petroleum refining and marketing. Intersegment revenues result from storage and throughput agreements with related parties at lease rates consistent with rates charged to third parties for storage and at pipeline tariff rates based upon the applicable published tariff.

Results of operations for the reportable segments were as follows:

	 Three Months	Ended	June 30,		Six Months E	nded J	une 30,

## 16. CONDENSED CONSOLIDATING FINANCIAL STATEMENTS

NuStar Energy has no operations and its assets consist mainly of its investments in NuStar Logistics and NuPOP, both wholly owned subsidiaries. The senior notes issued by NuStar Logistics and NuPOP are fully and unconditionally guaranteed by NuStar Energy, and each of NuStar Logistics and NuPOP fully and unconditionally guarantee the outstanding senior notes of the other. As a result, the following condensed consolidating financial statements are presented as an alternative to providing separate financial statements for NuStar Logistics and NuPOP.

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

#### FORWARD-LOOKING STATEMENTS

This Form 10-Q contains certain estimates, predictions, projections, assumptions and other forward-looking statements that involve various risks and uncertainties. While these forward-looking statements, and any assumptions upon which they are based, are made in good faith and reflect our current judgment regarding the direction of our business, actual results will almost always vary, sometimes materially, from any estimates, predictions, projections, assumptions or other future performance suggested in this report. These forward-looking statements can generally be identified by the words "anticipates," "believes," "expects," "plans," "intends," "estimates," "forecasts," "budgets," "projects," "will," "could," "should," "may" and similar expressions. These statements reflect our current views with regard to future events and are subject to various risks, uncertainties and assumptions. Please read our Annual Report on Form 10-K for the year ended December 31, 2011, Part I, Item 1A "Risk Factors," as well as our subsequent current and quarterly reports, for a discussion of certain of those risks, uncertainties and assumptions.

If one or more of these risks or uncertainties materialize, or if the underlying assumptions prove incorrect, our actual results may vary materially from those described in any forward-looking statement. Other unknown or unpredictable factors could also have material adverse effects on our future results. Readers are cautioned not to place undue reliance on this forward-looking information, which is as of the date of this Form 10-Q. We do not intend to update these statements unless it is required by the securities laws to do so, and we undertake no obligation to publicly release the result of any revisions to any such forward-looking statements that may be made to reflect events or circumstances after the date of this report or to reflect the occurrence of unanticipated events.

#### **OVERVIEW**

NuStar Energy L.P. (NuStar Energy) is a publicly held Delaware limited partnership engaged in the terminalling and storage of petroleum products, the transportation of petroleum products and anhydrous ammonia, and petroleum refining and marketing. Unless otherwise indicated, the terms "NuStar Energy," "the Partnership," "we," "our" and "us" are used in this report to refer to NuStar Energy L.P., to one or more of our consolidated subsidiaries or to all of them taken as a whole. NuStar GP Holdings, LLC (NuStar GP Holdings) (NYSE: NSH) owns our general partner, Riverwalk Logistics, L.P., and owns a 16.2% total interest in us as of June 30, 2012. Our Management's Discussion and Analysis of Financial Condition and Results of Operations is presented in six sections:

- Overview
- Results of Operations
- · Trends and Outlook
- Liquidity and Capital Resources
- Related Party Transactions
- Critical Accounting Policies

## **Operations**

We conduct our operations through our subsidiaries, primarily NuStar Logistics, L.P. (NuStar Logistics) and NuStar Pipeline Operating Partnership L.P. (NuPOP). Our operations are divided into three reportable business segments: storage, transportation, and asphalt and fuels marketing.

*Storage*. We own terminals and storage facilities in the United States, Canada, Mexico, the Netherlands, including St. Eustatius in the Caribbean, the United Kingdom and Turkey providing approximately 83.0 million barrels of storage capacity. Our terminals and storage facilities provide storage and handling services on a fee basis for petroleum products, specialty chemicals and other liquids, including crude oil and other feedstocks.

Transportation. We own common carrier refined product pipelines in Texas, Oklahoma, Colorado, New Mexico, Kansas, Nebraska, Iowa, South Dakota, North Dakota and Minnesota covering approximately 5,480 miles, consisting of the Central West System, the East Pipeline and the North Pipeline. The East and North Pipelines also include 21 terminals providing storage capacity of 4.5 million barrels, and the East Pipeline includes two tank farms providing storage capacity of 1.2 million barrels. In addition, we own a 2,000 mile anhydrous ammonia pipeline located in Louisiana, Arkansas, Missouri, Illinois, Indiana, Iowa and Nebraska. We also own 953 miles of crude oil pipelines in Texas, Oklahoma, Kansas, Colorado and Illinois, as well as 1.9 million barrels of crude storage in Texas and Oklahoma located along those crude oil pipelines. We charge tariffs on a per barrel basis for transporting refined products, crude oil and other feedstocks in our refined product and crude oil pipelines and on a per ton basis for transporting anhydrous ammonia in our ammonia pipeline.

#### Table of Contents

Asphalt and Fuels Marketing. Our asphalt and fuels marketing segment includes our asphalt operations, fuels marketing operations and our San Antonio refinery. Our asphalt operations include two asphalt refineries with a combined throughput capacity of 104,000 barrels per day at which we refine crude oil to produce asphalt and certain other refined products. Within our fuels marketing operations, we purchase crude oil and refined petroleum products for resale. Additionally, this segment includes a fuels refinery in San Antonio, Texas, with a throughput capacity of 14,500 barrels per day at which we refine crude oil to produce various refined petroleum products. The results of operations for the asphalt and fuels marketing segment depend largely on the margin between our cost and the sales prices of the products we market. Therefore, the results of operations for this segment are more sensitive to changes in commodity prices compared to the operations of the storage and transportation segments. We enter into derivative contracts to attempt to mitigate the effects of commodity price fluctuations.

On July 3, 2012, we entered into an agreement with an affiliate of Lindsay Goldberg LLC (Lindsay Goldberg), a private investment firm, to create a joint venture that will own and operate NuStar Energy's asphalt refining assets, including the asphalt refineries located in Paulsboro, New Jersey and Savannah, Georgia (collectively, the Asphalt Operations). NuStar Energy and Lindsay Goldberg will each have a 50% voting interest in NuStar Asphalt LLC (Asphalt JV), currently a wholly owned subsidiary of NuStar Energy, which was formed for the purpose of entering into this joint venture and will own all the assets of the Asphalt Operations. This transaction is expected to close in the third quarter of 2012, and upon closing, we expect to deconsolidate Asphalt JV and prospectively report our remaining investment in Asphalt JV using the equity method of accounting. Therefore, as of June 30, 2012, we have presented the assets related to the Asphalt Operations as "Assets held for sale" on the consolidated balance sheet. Because of our expected continued involvement with Asphalt JV, we have not presented the results of operations for the Asphalt Operations as discontinued operations.

In connection with our expected sale of 50% of Asphalt JV, we evaluated the goodwill and other long-lived assets associated with the Asphalt Operations for potential impairment. We determined the fair value of the Asphalt Operations reporting unit was less than its carrying value, which resulted in the recognition of a goodwill impairment loss of \$22.1 million in the second quarter of 2012. In addition, we recorded an impairment loss of \$244.3 million in the second quarter of 2012 to write-down the carrying value of long-lived assets related to the Asphalt Operations, including fixed assets, intangible assets and other long-term assets to their estimated fair value. The goodwill impairment loss and the asset impairment loss related to the Asphalt Operations is reported in the asphalt and fuels marketing segment. Please refer to Note 2 of the Condensed Notes to Consolidated Financial Statements in Item 1. "Financial Statements" for a discussion of our plan to sell 50% of Asphalt JV. Please refer to Note 2 and Note 7 of the Condensed Notes to Consolidated Financial Statements in Item 1. "Financial Statements" for a discussion on the related asset impairments and the fair value measurements.

The following factors affect the results of our operations:

- · company-specific factors, such as facility integrity issues and maintenance requirements that impact the throughput rates of our assets;
- seasonal factors that affect the demand for products transported by and/or stored in our assets and the demand for products we sell, particularly asphalt;
- industry factors, such as changes in the prices of petroleum products, that affect demand and operations of our competitors;
- factors such as commodity price volatility that impact our asphalt and fuels marketing segment; and
- other factors, such as refinery utilization rates and maintenance turnaround schedules, that impact our refineries as well as the operations of refineries served by our storage and transportation assets.

#### **RESULTS OF OPERATIONS**

Three Months Ended June 30, 2012 Compared to Three Months Ended June 30, 2011

## Highlights

For the three months ended June 30, 2012, we reported a net loss of \$246.8 million, compared to net income of \$92.6 million the three months ended June 30, 2011, primarily due to an operating loss of \$292.5 million in the asphalt and fuels marketing segment. The operating loss of the asphalt and fuels marketing segment mainly resulted from an asset impairment charge of \$266.4 million related to the long-lived assets of our asphalt operations. In addition, the gross margin for the asphalt and fuels marketing segment decreased \$90.5 million for the three months ended June 30, 2012, compared to the three months ended June 30, 2011. These decreases were partially offset by increases in segment operating income in our storage and transportation segments for the three months ended June 30, 2012, compared to the three months ended June 30, 2012, compared to the three months ended June 30, 2011, as well as a \$28.7 million gain on a legal settlement recognized in the second quarter of 2012.

#### Table of Contents

#### Storage

Throughputs increased 53,993 barrels per day and throughput revenues increased \$2.6 million for the three months ended June 30, 2012, compared to the three months ended June 30, 2011, primarily due to operational issues in 2011 at the refinery served by our Benicia crude oil storage tanks. In addition, throughputs and revenues increased at the Edinburg, Texas and Harlingen, Texas terminals due to ethanol blending services that started in the third quarter of 2011. Throughputs and revenues also increased at certain terminals serving the McKee refinery and at our Texas City crude storage tanks due to increased demand in those markets.

Storage lease revenues increased \$10.7 million for the three months ended June 30, 2012, compared to the three months ended June 30, 2011, primarily due to an increase of \$12.0 million at our St. James terminal resulting from the completed unit train offloading facility project and tank expansion projects, as well as new customer contracts and rate escalations. In addition, revenues increased \$2.4 million at our St. Eustatius terminal facility mainly due to rate escalations and increased throughput and related handling fees.

These increases were partially offset by a decrease in revenues of \$2.6 million at our Point Tupper terminal facility mainly due to decreased dockage, throughput and related handling fees, which were partially offset by higher storage revenues. Revenues also decreased \$2.3 million due to the sale of five terminals in April 2012.

Operating expenses decreased \$1.5 million for the three months ended June 30, 2012, compared to the three months ended June 30, 2011, mainly due to write-offs associated with cancelled capital projects in 2011.

Depreciation and amortization expense increased \$1.3 million for the three months ended June 30, 2012, compared to the three months ended June 30, 2011, primarily due to the completion of the St. James terminal tank expansion projects.

The asset impairment loss of \$2.1 million for the three months ended June 30, 2012 represents the write-down of the carrying value of one of our terminals due to changing market conditions that reduced the estimated cash flows for that terminal.

#### **Transportation**

Revenues increased \$4.1 million, despite a decrease in throughputs of 49,772 barrels per day, for the three months ended June 30, 2012, compared to the three months ended June 30, 2011, primarily due to:

- an increase in revenues of \$2.8 million and an increase in throughputs of 36,405 barrels per day on pipelines that were placed in service in the second and third quarters of 2011 to serve Eagle Ford Shale production in South Texas;
- an increase in revenues of \$2.7 million on the East Pipeline, despite a decrease in throughputs of 10,642 barrels per day, due to higher average tariffs resulting from increased long-haul deliveries and an increase in the annual index adjustment effective July 1, 2011; and
- an increase in revenues of \$2.1 million on the ammonia pipeline, while throughputs remained flat, due to higher average tariffs resulting from increased long-haul deliveries and the annual index adjustment. Fewer long-haul deliveries occurred in 2011 due to supply issues caused by flooding in the Midwest.

These increases in revenues were partially offset by a decrease in revenues of \$4.6 million and a decrease in throughputs of 78,611 barrels per day on pipelines serving the McKee refinery primarily due to a turnaround at the McKee refinery in April and May 2012. The decrease in revenues was partially offset by a throughput deficiency payment received in the second quarter of 2012 related to one of the pipelines serving the McKee refinery.

Operating expenses increased \$1.8 million for the three months ended June 30, 2012, compared to the three months ended June 30, 2011, mainly due to increased regulatory expenses on the ammonia pipeline and several other refined product pipelines.

## **Asphalt and Fuels Marketing**

Sales and cost of product sales increased \$303.2 million and \$393.7 million, respectively, resulting in a decrease in total gross margin of \$90.5 million for the three months ended June 30, 2012, compared to the three months ended June 30, 2011. The gross margin from our asphalt operations decreased \$66.0 million for the three months ended June 30, 2012, compared to the three months ended June 30, 2011, mainly due to weak demand for asphalt, resulting in a decrease in gross margin per barrel. The gross margin per barrel decreased to \$3.29 for the three months ended June 30, 2012, compared to \$15.50 for the three months ended June 30, 2011.

The gross margin from our fuels marketing operations decreased \$20.2 million for the three months ended June 30, 2012, compared to the three months ended June 30, 2011. During April and May 2012, crude oil prices fell sharply, causing a similar

decline in prices for our fuel oil and bunker fuel. During this period of declining prices, we did not hedge our fuel oil and bunker fuel inventories. As a result, the gross margin earned for sales of those products declined significantly. As of the end of May, our fuel oil and bunker fuel inventories were hedged. In addition, the gross margin for crude trading decreased also due to the decline in crude oil prices.

Operating expenses increased \$6.2 million for the three months ended June 30, 2012, compared to the three months ended June 30, 2011, primarily due to increased fuel and vessel costs associated with our bunker fuel sales and increased rental expenses associated with crude supply for our asphalt operations.

Depreciation and amortization expense increased \$1.6 million for the three months ended June 30, 2012, compared to the three months ended June 30, 2011, primarily due the amortization of deferred costs related to completed turnarounds at our refineries.

The asset impairment loss of \$266.4 million for the three months ended June 30, 2012 represents the write-down of the carrying value of our long-lived assets related to our asphalt operations, including fixed assets, goodwill, intangible assets and other long-term assets.

#### **Consolidation and Intersegment Eliminations**

Revenue, cost of product sales and operating expense eliminations primarily relate to storage and transportation fees charged to the asphalt and fuels marketing segment by the transportation and storage segments.

#### General

General and administrative expenses decreased \$3.0 million for the three months ended June 30, 2012, compared to the three months ended June 30, 2011, primarily due to lower compensation expense associated with our long-term incentive plans, which fluctuates with our unit price, as well as decreased professional fees and other operating expenses. These decreases were partially offset by penalties and related costs incurred on a Canadian income tax audit.

The other asset impairment loss of \$3.3 million for the three months ended June 30, 2012 represents the write-down of the carrying value of certain corporate assets we intend to sell to the estimated sales price.

The gain on legal settlement of \$28.7 million for the three months ended June 30, 2012 represents the settlement of the Grace Energy Corporation matter in the second quarter of 2012. Please refer to Note 6 of the Condensed Notes to Consolidated Financial Statements in Item 1. "Financial Statements" for a detailed discussion of the Grace Energy Corporation matter.

Interest expense, net increased \$3.2 million for the three months ended June 30, 2012, compared to the three months ended June 30, 2011, mainly due to higher interest rates and letter of credit fees on the new \$1.5 billion five-year revolving credit agreement. In addition, we had reduced benefits from interest rate swaps for the three months ended June 30, 2012, compared to the three months ended June 30, 2011, as we had fewer fixed-to-floating interest rate swaps in 2012 compared to 2011, and in February 2012, we began recognizing the interest expense related to terminated forward-starting interest rate swap agreements.

Other expense, net increased \$1.8 million for the three months ended June 30, 2012, compared to the three months ended June 30, 2011, mainly due to foreign exchange losses totaling \$2.9 million primarily relating to our subsidiaries in Canada and the Netherlands in the second quarter of 2012.

Income tax expense increased \$11.1 million for the three months ended June 30, 2012, compared to the three months ended June 30, 2011, mainly due to tax expense of \$10.1 million related to the \$28.7 million gain on legal settlement recognized in the second quarter of 2012. Please refer to Note 14 of the Condensed Notes to Consolidated Financial Statements in Item 1. "Financial Statements" for a discussion on income taxes.

#### Highlights

For the six months ended June 30, 2012, we reported a net loss of \$220.6 million, compared to net income of \$121.1 million for the six months ended June 30, 2011, primarily due to an operating loss of \$308.3 million in the asphalt and fuels marketing segment. The operating loss of the asphalt and fuels marketing segment mainly resulted from an asset impairment charge of \$266.4 million related to the long-lived assets of our asphalt operations. In addition, the gross margin for the asphalt and fuels marketing segment decreased \$95.8 million for the six months ended June 30, 2012, compared to the six months ended June 30, 2011. These decreases were partially offset by increases in segment operating income in our storage and transportation segments for the six months ended June 30, 2012, compared to the six months ended June 30, 2011, as well as a \$28.7 million gain on a legal settlement recognized in the second quarter of 2012.

#### Storage

Throughputs increased 86,041 barrels per day and throughput revenues increased \$7.8 million for the six months ended June 30, 2012, compared to the six months ended June 30, 2011, primarily due to a turnaround in the first quarter of 2011 at the refinery served by our Benicia crude oil storage tanks. In addition, throughputs and revenues increased at the Edinburg, Texas and Harlingen, Texas terminals due to ethanol blending services that started in the third quarter of 2011 and at certain terminals serving the McKee refinery due to increased demand in those markets.

Storage lease revenues increased \$14.1 million for the six months ended June 30, 2012, compared to the six months ended June 30, 2011, primarily due to:

- an increase of \$18.5 million at our St. James terminal resulting from completed tank expansion projects and the unit train offloading facility project, as well as new customer contracts and rate escalations;
- an increase of \$3.3 million at our St. Eustatius terminal facility mainly due to rate escalations and increased reimbursable revenues; and
- an increase of \$2.3 million at our Texas City terminal mainly due to higher throughput and related handling fees, as well as rate escalations and new storage contracts.

These increases in revenues were partially offset by:

- a decrease in revenues of \$5.3 million at our Point Tupper terminal facility mainly due to decreased dockage, throughput and related handling fees, which were partially offset by higher storage revenues;
- a decrease in revenues of \$3.2 million at our Piney Point terminal due to a decrease in customer base; and
- a decrease in revenues of \$2.7 million due to the sale of five terminals in April 2012.

Operating expenses decreased \$2.4 million for the six months ended June 30, 2012, compared to the six months ended June 30, 2011, mainly due to write-offs associated with cancelled capital projects in 2011.

Depreciation and amortization expense increased \$3.5 million for the six months ended June 30, 2012, compared to the six months ended June 30, 2011, primarily due to the completion of the St. James terminal tank expansion projects.

The asset impairment loss of \$2.1 million for the six months ended June 30, 2012 represents the write-down of the carrying value of one of our terminals due to changing market conditions that reduced the estimated cash flows for that terminal.

#### **Transportation**

Revenues increased \$8.8 million, despite a decrease in throughputs of 33,912 barrels per day, for the six months ended June 30, 2012, compared to the six months ended June 30, 2011, primarily due to:

- an increase in revenues of \$5.9 million and an increase in throughputs of 34,417 barrels per day on pipelines that were placed in service in the second and third quarters of 2011 to serve Eagle Ford Shale production in South Texas;
- an increase in revenues of \$3.7 million on the ammonia pipeline, while throughputs remained flat, due to a warm spring that led to the early application of ammonia and increased long-haul deliveries resulting in a higher average tariff. Fewer long-haul deliveries occurred in 2011 due to supply issues caused by flooding in the Midwest;
- an increase in revenues of \$2.5 million on the East Pipeline, despite a decrease in throughputs of 11,210 barrels per day, due to higher average
  tariffs resulting from increased long-haul deliveries and an increase in the annual index adjustment effective July 1, 2011; and
- an increase in revenues of \$1.4 million and an increase in throughputs of 23,474 barrels per day on the crude oil pipelines that serve the Ardmore refinery due to a turnaround and operational issues in the first and second quarters of 2011 at the Ardmore refinery.

These increases in revenues were partially offset by:

- a decrease in revenues of \$4.4 million and a decrease in throughputs of 50,939 barrels per day on pipelines serving the McKee refinery primarily due to a turnaround at the McKee refinery in April and May 2012. The decrease in revenues was partially offset by a throughput deficiency payment received in the second quarter of 2012 related to one of the pipelines serving the McKee refinery; and
- a decrease in revenues of \$3.1 million and a decrease in throughputs of 37,524 barrels per day on a crude oil pipeline serving the Three Rivers refinery, mainly due to the customer receiving crude oil from alternate sources, thus reducing the volume transported on our pipeline.

Operating expenses increased \$3.7 million for the six months ended June 30, 2012, compared to the six months ended June 30, 2011, mainly due to increased regulatory expenses on the ammonia pipeline and several other refined product pipelines.

#### **Asphalt and Fuels Marketing**

Sales and cost of product sales increased \$792.8 million and \$888.6 million, respectively, resulting in a decrease in total gross margin of \$95.8 million for the six months ended June 30, 2012, compared to the six months ended June 30, 2011. The gross margin from our asphalt operations decreased \$70.6 million for the six months ended June 30, 2012, compared to the six months ended June 30, 2011, mainly due to a decrease in gross margin per barrel, as well as a decrease in sales volumes. The gross margin per barrel decreased to \$4.20 for the six months ended June 30, 2012, compared to \$12.70 for the six months ended June 30, 2011, while sales volumes decreased by approximately 13.0%.

The gross margin from the San Antonio refinery, acquired in the second quarter of 2011, decreased \$13.3 million for the six months ended June 30, 2012, compared to the six months ended June 30, 2011, mainly due to hedge losses and net refinery yield losses resulting in an overall negative gross margin. In addition, the gross margin from our fuels marketing operations decreased \$11.9 million for the six months ended June 30, 2012, compared to the six months ended June 30, 2011. During April and May 2012, crude oil prices fell sharply, causing a similar decline in prices for our fuel oil and bunker fuel. During this period of declining prices, we did not hedge our fuel oil and bunker fuel inventories. As a result, the gross margin earned for sales of those products was declined significantly. As of the end of May, our fuel oil and bunker fuel inventories were hedged.

Operating expenses increased \$15.2 million for the six months ended June 30, 2012, compared to the six months ended June 30, 2011, primarily due to increased fuel and vessel costs associated with our bunker fuel sales and increased rental expenses associated with crude supply for our asphalt operations.

Depreciation and amortization expense increased \$3.3 million for the six months ended June 30, 2012, compared to the six months ended June 30, 2011, primarily due to the amortization of deferred costs related to completed turnarounds at our refineries and the acquisition of the San Antonio refinery in April 2011.

The asset impairment loss of \$266.4 million for the six months ended June 30, 2012 represents the write-down of the carrying value of our long-lived assets related to our asphalt operations, including fixed assets, goodwill, intangible assets and other long-term assets.

#### Consolidation and Intersegment Eliminations

Revenue, cost of product sales and operating expense eliminations primarily relate to storage and transportation fees charged to the asphalt and fuels marketing segment by the transportation and storage segments.

#### General

General and administrative expenses decreased \$1.8 million for the six months ended June 30, 2012, compared to the June 30, 2011, primarily due to decreased professional fees and other operating expenses. These decreases were partially offset by penalties and related costs incurred on a Canadian income tax audit.

The other asset impairment loss of \$3.3 million for the six months ended June 30, 2012 represents the write-down of the carrying value of certain corporate assets we intend to sell to the estimated sales price.

The gain on legal settlement of \$28.7 million for the six months ended June 30, 2012 represents the settlement of the Grace Energy Corporation matter in the second quarter of 2012. Please refer to Note 6 of the Condensed Notes to Consolidated Financial Statements in Item 1. "Financial Statements" for a detailed discussion of the Grace Energy Corporation matter.

Interest expense, net increased \$5.1 million for the six months ended June 30, 2012, compared to the six months ended June 30, 2011, mainly due to higher interest rates and letter of credit fees on the new \$1.5 billion five-year revolving credit agreement. In addition, we had reduced benefits from interest rate swaps for the six months ended June 30, 2012, compared to the six months ended June 30, 2011, as we had fewer fixed-to-floating interest rate swaps in 2012 compared to 2011, and in February 2012, we began recognizing the interest expense related to terminated forward-starting interest rate swap agreements.

Other expense, net decreased \$5.0 million for the six months ended June 30, 2012, compared to the six months ended June 30, 2011, mainly due to \$5.0 million in costs associated with the early termination of a third-party storage agreement at our Paulsboro, New Jersey asphalt refinery during the six months ended June 30, 2011.

Income tax expense increased \$10.9 million for the six months ended June 30, 2012, compared to the six months ended June 30, 2011, mainly due to tax expense of \$10.1 million related to the \$28.7 million gain on legal settlement recognized in the second quarter of 2012. Please refer to Note 14 of the Condensed Notes to Consolidated Financial Statements in Item 1. "Financial Statements" for a discussion on income taxes.

#### TRENDS AND OUTLOOK

#### Storage Segment

For the last half of 2012, we expect the storage segment to continue to benefit from internal growth projects completed in 2011 as well as those expected to be completed in 2012, mainly at our St. Eustatius terminal in the Caribbean and our St. James, Louisiana terminal. However, third quarter 2012 earnings may be slightly lower than the same period of 2011 due to higher maintenance costs at several of our terminal facilities that will more than offset the expected additional earnings from those completed projects. Overall, we expect the full year 2012 earnings for the storage segment to exceed 2011.

#### **Transportation Segment**

We expect earnings of the transportation segment for the third quarter and the last half of 2012 to be higher as compared to the same periods in 2011. Earnings for this segment should benefit from higher throughputs related to the pipeline expansion projects completed in 2011 and in July 2012 that serve Eagle Ford Shale production as well as an additional Eagle Ford shale expansion project we should complete in the third or fourth quarter of 2012. Additionally, the last half of 2012 will benefit from the tariff increase that went into effect on July 1, 2012 on our pipelines regulated by the Federal Energy Regulatory Commission. However, we expect throughputs to be negatively affected by planned maintenance at refineries served by our pipelines in the fourth quarter of 2012, which will partially offset the expected increases described above. Overall, we expect the full year 2012 earnings for the transportation segment to be higher than 2011.

#### Asphalt and Fuels Marketing Segment

We expect to complete the sale of 50% of our asphalt operations in the third quarter of 2012. Upon closing of the sale, we expect to deconsolidate the asphalt operations and prospectively report our remaining investment using the equity method of accounting. Because of our ongoing involvement with the asphalt operations, we will not report its historic results of operations as discontinued operations. Therefore, our future results of operations for this segment, subsequent to deconsolidation, will not be comparable to the corresponding historic periods. Furthermore, at the closing date, we have agreed to sell inventory associated with our asphalt operations to the new entity at market prices, as defined in the purchase and sale agreement filed on our July 6, 2012 Current Report on Form 8-K. In recent months, crude oil prices generally have declined. If that trend continues, the market price for our inventory may be less than our cost, causing an additional loss upon deconsolidation of the asphalt operations.

We expect third quarter results for our fuels marketing operations to fall below the third quarter of last year, primarily due to lower earnings from our bunkering and crude oil trading. Expected lower earnings for the third quarter combined with the lower earnings through the second quarter should cause full year results for the fuels marketing operations to be less than the full year results for the prior year.

Our outlook for the partnership overall could change depending on, among other things, crude oil prices, the state of the economy, changes to refinery maintenance schedules and other factors that affect overall demand for the products we store, transport and sell as well as changes in commodity prices for the products we market.

#### LIQUIDITY AND CAPITAL RESOURCES

#### General

Our primary cash requirements are for distributions to partners, working capital, including inventory purchases, debt service, capital expenditures, acquisitions and operating expenses. On an annual basis, we attempt to fund our operating expenses, interest expense, reliability capital expenditures and distribution requirements with cash generated from our operations. If we do not generate sufficient cash from operations to meet those requirements, we utilize available borrowing capacity under our revolving credit agreement and, to the extent necessary, funds raised through equity or debt offerings under our shelf registration statements. Additionally, we typically fund our strategic capital expenditures from external sources, primarily borrowings under our revolving credit agreement or funds raised through equity or debt offerings. However, our ability to raise funds by issuing debt or equity depends on many factors beyond our control. The volatility of the capital and credit markets could restrict our ability to issue debt or equity or may increase our cost of capital beyond rates acceptable to us.

#### Cash Flows for the Six Months Ended June 30, 2012 and 2011

The following table summarizes our cash flows from operating, investing and financing activities:

	Six Months Ended June 30,						
	2012 2011						
	llars)						
\$	32,118	\$	1,824				
	(182,419)		(262,133)				
	165,090		206,840				
	1,861		1,224				
\$	16,650	\$	(52,245)				
	\$	\$ 32,118 (182,419) 165,090 1,861	\$ 32,118 \$ (182,419) 165,090 1,861				

Net cash provided by operating activities for the six months ended June 30, 2012 was \$32.1 million, compared to \$1.8 million for the six months ended June 30, 2011. For the six months ended June 30, 2012, we reported a net loss of \$220.6 million, compared to net income of \$121.1 million for the six months ended June 30, 2011. The net loss for the six months ended June 30, 2012 included \$271.8 million for non-cash asset impairment charges. In addition, working capital increased by \$76.1 million for the six months ended June 30, 2012, compared to \$201.7 million for the six months ended June 30, 2011. Please refer to the Working Capital Requirements section below for a discussion of the changes in working capital. Cash flows from operating activities also include an adjustment to net loss for a pre-tax, non-cash gain on legal settlement of \$28.8 million.

For the six months ended June 30, 2012, net cash provided by operating activities, proceeds from long-term debt borrowings, net of repayments, combined with cash on hand, were used to fund our distributions to unitholders and our general partner and capital expenditures.

For the six months ended June 30, 2011, net cash provided by operating activities, proceeds from long-term debt borrowings, net of repayments, combined with cash on hand, were used to fund our distributions to unitholders and our general partner, capital expenditures primarily related to various terminal projects and two acquisitions.

#### **Revolving Credit Agreements**

On May 2, 2012, NuStar Logistics replaced the \$1.2 billion five-year revolving credit agreement (the 2007 Revolving Credit Agreement) with a new \$1.5 billion five-year revolving credit agreement (the 2012 Revolving Credit Agreement), which includes the ability to borrow up to the equivalent of \$250.0 million in Euros. NuStar Logistics used borrowings of \$588.6 million under the 2012 Revolving Credit Agreement and cash on hand to repay in full the balance on the 2007 Revolving Credit Agreement. Obligations under the 2012 Revolving Credit Agreement are guaranteed by NuStar Energy and NuPOP. NuPOP will be released from its guarantee of the 2012 Revolving Credit Agreement when it no longer guarantees NuStar Logistics public debt instruments. As of June 30, 2012, we had \$668.4 million available for borrowing under our 2012 Revolving Credit Agreement.

The 2012 Revolving Credit Agreement contains customary restrictive covenants, including requiring us to maintain, as of the end of each rolling period, consisting of any period of four consecutive fiscal quarters, a consolidated debt coverage ratio (consolidated indebtedness to consolidated EBITDA, as defined in the 2012 Revolving Credit Agreement) not to exceed 5.00-to-1.00; provided, for the rolling period ending June 30th of each year, the maximum consolidated debt coverage ratio will increase to 5.50-to-1.00. Moreover, if we consummate an acquisition for an aggregate net consideration of at least \$50.0 million, the maximum consolidated debt coverage ratio will increase to 5.50-to-1.00 for two rolling periods.

On June 29, 2012, we amended the 2012 Revolving Credit Agreement to permit unlimited investments in joint ventures and unconsolidated subsidiaries, provided that no default exists, and to modify the consolidated debt coverage ratio to include up to 20% of cash distributions for such joint ventures and unconsolidated subsidiaries (the Amendment). In addition, the Amendment provides that we will be in compliance with the consolidated debt coverage ratio as long as it does not exceed 6.50-to-1.00 for the rolling period ended June 30, 2012 or 6.00-to-1.00 for the rolling period ending September 30, 2012. However, the consolidated debt coverage ratio will revert to a maximum of 5.00-to-1.00 for any four consecutive quarters, if our Asphalt Operations are owned by an unconsolidated joint venture. The requirement not to exceed a maximum consolidated debt coverage ratio may limit the amount we can borrow under the 2012 Revolving Credit Agreement to an amount less than the total amount available for borrowing. Please refer to Note 5 of the Condensed Notes to Consolidated Financial Statements in Item 1. "Financial Statements" for a more detailed discussion on certain of our long-term debt agreements. As of June 30, 2012, the consolidated debt coverage ratio was 6.0x.

#### **Shelf Registration Statements**

Our two shelf registration statements on Form S-3 permit us to offer and sell various types of securities, including NuStar Energy common units and debt securities of NuStar Logistics and NuPOP. The shelf registration statement that became effective on April 29, 2011 permits us to sell securities having an aggregate value of up to \$200.0 million (the 2011 Shelf Registration Statement). The 2011 Shelf Registration Statement is in addition to our shelf registration statement on Form S-3 the Securities and Exchange Commission declared effective in May 2010.

On February 2, 2012, NuStar Logistics issued \$250.0 million of 4.75% senior notes under our 2010 Shelf Registration Statement. The net proceeds of \$247.4 million were used to repay the outstanding principal amount of NuPOP's 7.75% senior notes due February 15, 2012. Please refer to Note 5 of the Condensed Notes to Consolidated Financial Statements in Item 1. "Financial Statements" for a more detailed discussion on certain of our long-term debt agreements.

If the capital markets become more volatile, our access to the capital markets may be limited, or we could face increased costs. In addition, it is possible that our ability to access the capital markets may be limited at a time when we would like or need access, which could have an impact on our ability to refinance maturing debt and/or react to changing economic and business conditions.

#### **Capital Requirements**

Our operations require significant investments to maintain, upgrade or enhance the operating capacity of our existing assets. Our capital expenditures consist of:

- · reliability capital expenditures, such as those required to maintain equipment reliability and safety; and
- strategic capital expenditures, such as those to expand and upgrade pipeline capacity, terminal facilities or refinery operations and to construct
  new pipelines, terminals and storage tanks. In addition, strategic capital expenditures may include acquisitions of pipelines, terminals or storage
  tank assets, as well as certain capital expenditures related to support functions.

During the six months ended June 30, 2012, our reliability capital expenditures totaled \$15.0 million, consisting of \$12.7 million primarily related to maintenance upgrade projects at our terminals and the San Antonio refinery, which are classified as "Reliability capital expenditures" in the consolidated statements of cash flows, and \$2.3 million of turnaround expenditures at our San Antonio refinery, which are classified as "Investment in other long-term assets" in our consolidated statements of cash flows. Strategic capital expenditures for the six months ended June 30, 2012 totaled \$198.4 million and were primarily related to projects associated with Eagle Ford shale production in South Texas, projects at our St. James, Louisiana terminal and the San Antonio refinery and our corporate office.

For the full year 2012, we expect our capital expenditures to total approximately \$470.0 million to \$525.0 million, including \$45.0 million to \$50.0 million for reliability capital projects and \$425.0 million to \$475.0 million for strategic capital projects, not including acquisitions. We continue to evaluate our capital budget and make changes as economic conditions warrant, and our actual capital expenditures for 2012 may increase or decrease from the budgeted amounts. We believe cash generated from operations, combined with other sources of liquidity previously described, will be sufficient to fund our capital expenditures in 2012, and our internal growth projects can be accelerated or scaled back depending on the condition of the capital markets.

#### **Working Capital Requirements**

Our asphalt and fuels marketing segment requires us to make substantial investments in working capital. Increases in the prices of the commodities we purchase cause our working capital requirements to increase, which reduces our liquidity. Our working capital requirements vary with the seasonal nature of asphalt demand as we build and store asphalt inventories during periods of lower demand in order to sell it during periods of higher demand. This seasonal variance in demand also affects our accounts

receivable and accounts payable balances, which vary depending on timing of payments.

Within working capital, accounts receivable decreased by \$60.4 million during the six months ended June 30, 2012, compared to an increase of \$139.1 million during the six months ended June 30, 2011, mainly due to the timing of payments and higher bunker fuel sales and crude trading activity during the six months ended June 30, 2011. In addition, our inventory balances increased by \$76.8 million, during the six months ended June 30, 2012, compared to \$239.8 million during the six months ended June 30, 2011, mainly due to rising crude oil prices in 2011. As of June 30, 2012, \$411.0 million of inventory related to the Asphalt Operations was reclassified to "Assets held for sale" on our consolidated balance sheet.

Higher inventory balances would typically also result in higher amounts of accounts payable, offsetting the impact to working capital. During the six months ended June 30, 2011, accounts payable increased by \$202.2 million, partially offsetting the increase in inventory during that period; however, accounts payable decreased by \$31.3 million during the six months ended June 30, 2012, despite an increase in inventory, due to the timing of payments.

#### Distributions

On May 11, 2012, we paid a quarterly cash distribution totaling \$89.1 million, or \$1.095 per unit, related to the first quarter of 2012. On July 27, 2012, we announced a quarterly cash distribution of \$1.095 per unit related to the second quarter of 2012. This distribution will be paid on August 10, 2012 to unitholders of record on August 7, 2012 and will total \$89.1 million.

The following table reflects the allocation of total cash distributions to the general and limited partners applicable to the period in which the distributions were earned:

	 Three Months	Ende	d June 30,		Six Months I	Ended	June 30,
	2012		2011		2012		2011
		(	Thousands of Dollars, Exc	cept Pei	Unit Data)		
General partner interest	\$ 1,782	\$	1,627	\$	3,564	\$	3,219
General partner incentive distribution	9,816		8,963		19,632		17,531
Total general partner distribution	 11,598		10,590		23,196		20,750
Limited partners' distribution	77,478		70,749		154,956		140,205
Total cash distributions	\$ 89,076	\$	81,339	\$	178,152	\$	160,955
Cash distributions per unit applicable to							
limited partners	\$ 1.095	\$	1.095	\$	2.190	\$	2.170

Distributions declared for the quarter are paid within 45 days following the end of each quarter based on the partnership interests outstanding as of a record date that is set after the end of each quarter.

#### **Debt Obligations**

We are a party to the following debt agreements:

- the 2012 Revolving Credit Agreement due May 2, 2017, with a balance of \$550.8 million as of June 30, 2012;
- NuStar Logistics' 6.875% senior notes due July 15, 2012 with a face value of \$100.0 million; 6.05% senior notes due March 15, 2013 with a face value of \$229.9 million; 7.65% senior notes due April 15, 2018 with a face value of \$350.0 million; 4.80% senior notes due September 1, 2020 with a face value of \$450.0 million; and 4.75% senior notes due February 1, 2022 with a face value of \$250.0 million;
- NuPOP's 5.875% senior notes due June 1, 2013 with a face value of \$250.0 million;
- NuStar Logistics' \$365.4 million Gulf Opportunity Zone Revenue Bonds due from 2038 to 2041;
- the £21 million term loan due December 11, 2012 (UK Term Loan); and
- the \$12.0 million note payable in annual installments through December 31, 2015 to the Port of Corpus Christi Authority of Nueces County, Texas, with a balance of \$0.9 million as of June 30, 2012.

On June 29, 2012, we amended the UK Term Loan to be consistent with the covenant terms of the 2012 Revolving Credit Agreement. As a result of this amendment to the UK Term Loan, the covenants and ratios of the UK Term Loan are substantially the same as the 2012 Revolving Credit Agreement. Management believes that, as of June 30, 2012, we are in compliance with all ratios and covenants of both the 2012 Revolving Credit Agreement and the UK Term Loan. Our other long-term debt obligations do not contain any financial covenants that are different than those contained in the 2012 Revolving Credit Agreement. However, a default under any of our debt instruments would be considered an event of default under all of our debt instruments. Please refer to Note 5 of the Condensed Notes to Consolidated Financial Statements in Item 1. "Financial

Statements" for a more detailed discussion on certain of our long-term debt agreements.

#### Credit Ratings

The interest rates on the 2012 Revolving Credit Agreement and NuStar Logistics' \$350.0 million of 7.65% senior notes are subject to adjustment if our debt rating is downgraded (or subsequently upgraded) by certain credit rating agencies. In July 2012, Standard & Poor's lowered our credit rating to BB+ from BBB- and revised the outlook to Stable. The interest rates applicable to the 2012 Revolving Credit Agreement do not adjust unless both Moody's and Standard & Poor's change their ratings. However, the downgrade by Standard & Poor's caused the interest rate on NuStar Logistics' \$350.0 million of 7.65% senior notes to increase by 0.25%. This downgrade may also require us to provide additional credit support for certain contracts.

#### **Interest Rate Swaps**

As of June 30, 2012 and December 31, 2011, we were a party to fixed-to-floating interest rate swap agreements and forward-starting swap agreements for the purpose of hedging interest rate risk. The following table contains information on our interest rate swap agreements:

	Notiona	unt		Fair Value A	sset (Liability)		
	June 30, 2012	1	December 31, 2011		June 30, 2012	I	December 31, 2011
			(Thousands	s of Do	llars)		
Type of interest rate swap agreements:							
Fixed-to-floating	\$ _	\$	270,000	\$	_	\$	2,335
Forward-starting	\$ 275,000	\$	500,000	\$	(37,291)	\$	(49,199)

During the six months ended June 30, 2012, we entered into and terminated fixed-to-floating interest rate swap agreements with an aggregate notional amount of \$200.0 million related to the 4.75% senior notes issued on February 2, 2012. We also terminated fixed-to-floating interest rate swap agreements with an aggregate notional amount of \$270.0 million associated with our 4.80% senior notes. We received \$19.7 million in connection with the terminations, which we are amortizing into "Interest expense, net" over the remaining lives of the 4.80% and 4.75% senior notes. In addition, in connection with the issuance of the 4.75% senior notes on February 2, 2012, we terminated a portion of our outstanding forward-starting interest rate swap agreements with an aggregate notional amount of \$225.0 million. We paid \$25.4 million in connection with the terminations of the forward-starting interest rate swaps, which is being amortized into "Interest expense, net" over the life of the 4.75% senior notes. Proceeds and payments related to the terminations are included in cash flows from financing activities on the consolidated statements of cash flows. Please refer to Note 8 of the Condensed Notes to Consolidated Financial Statements in Item 1. "Financial Statements" for a more detailed discussion of our interest rate swaps.

#### Environmental, Health and Safety

We are subject to extensive federal, state and local environmental and safety laws and regulations, including those relating to the discharge of materials into the environment, waste management, pollution prevention measures, pipeline integrity and operator qualifications, among others. Because more stringent environmental and safety laws and regulations are continuously being enacted or proposed, the level of future expenditures required for environmental, health and safety matters is expected to increase.

#### Contingencies

We are subject to certain loss contingencies, the outcomes of which could have an adverse effect on our cash flows and results of operations, as further disclosed in Note 6 of the Condensed Notes to Consolidated Financial Statements in Item 1. "Financial Statements."

#### RELATED PARTY TRANSACTIONS

Please refer to Note 9 of the Condensed Notes to Consolidated Financial Statements in Item 1. "Financial Statements" for a detailed discussion of our related party transactions.

#### CRITICAL ACCOUNTING POLICIES

The preparation of financial statements in accordance with United States generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates. Our critical accounting policies are disclosed in our Annual Report on Form 10-K for the year ended December 31, 2011.

#### Item 3. Quantitative and Qualitative Disclosures About Market Risk

#### **Interest Rate Risk**

We manage our exposure to changing interest rates principally through the use of a combination of fixed-rate debt and variable-rate debt. In addition, we utilize fixed-to-floating interest rate swap agreements to manage a portion of the exposure to changing interest rates by converting certain fixed-rate debt to variable-rate debt. We also enter into forward-starting interest rate swap agreements to lock in the rate on the interest payments related to forecasted debt issuances. Borrowings under the 2012 Revolving Credit Agreement and Gulf Opportunity Zone Revenue Bonds expose us to increases in applicable interest rates.

During the six months ended June 30, 2012, we terminated all of our fixed-to-floating interest rate swap agreements, which had an aggregate notional amount of \$470.0 million. Please refer to Note 8 of the Condensed Notes to Consolidated Financial Statements in Item 1. "Financial Statements" for a more detailed discussion of our interest rate swaps.

The following tables provide information about our long-term debt and interest rate derivative instruments, all of which are sensitive to changes in interest rates. For long-term debt, principal cash flows and related weighted-average interest rates by expected maturity dates are presented. For our fixed-to-floating interest rate swaps, the table presents notional amounts and weighted-average interest rates by expected (contractual) maturity dates. Weighted-average variable rates are based on implied forward interest rates in the yield curve at the reporting date.

\$	275,000	\$	500,000		3.5%	\$	(37,291)	\$	(49,199)					

In connection with the issuance of the 4.75% senior notes on February 2, 2012, we terminated forward-starting interest rate swap agreements with an aggregate notional amount of \$225.0 million. Please refer to Note 8 of the Condensed Notes to Consolidated Financial Statements in Item 1. "Financial Statements" for a more detailed discussion of our interest rate swaps.

#### Commodity Price Risk

Since the operations of our asphalt and fuels marketing segment expose us to commodity price risk, we enter into derivative instruments to mitigate the effects of commodity price fluctuations. The derivative instruments we use consist primarily of commodity futures and swap contracts. We have a risk management committee that oversees our trading controls and procedures and certain aspects of risk management. Our risk management committee also reviews all new risk management strategies in accordance with our risk management policy, which was approved by our board of directors.

We record commodity derivative instruments in the consolidated balance sheets as assets or liabilities at fair value. We recognize mark-to-market adjustments for derivative instruments designated and qualifying as fair value hedges (Fair Value Hedges) and the related change in the fair value of the associated hedged physical inventory or firm commitment within "Cost of product sales." For derivative instruments designated and qualifying as cash flow hedges (Cash Flow Hedges), we record the effective portion of mark-to-market adjustments as a component of "Accumulated other comprehensive income" until the underlying hedged forecasted transactions occur and are recognized in "Cost of product sales." For derivative instruments that do not qualify for hedge accounting (Economic Hedges and Other Derivatives), we record the mark-to-market adjustments in "Product sales," "Cost of product sales" or "Operating expenses."

The commodity contracts disclosed below represent only those contracts exposed to commodity price risk at the end of the period. Please refer to Note 8 of Condensed Notes to Consolidated Financial Statement in Item 1. "Financial Statements" for the volume and related fair value of all commodity contracts.

#### Item 4. Controls and Procedures

(a) Evaluation of disclosure controls and procedures.

Our management has evaluated, with the participation of the principal executive officer and principal financial officer of NuStar GP, LLC, the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934) as of the end of the period covered by this report, and has concluded that our disclosure controls and procedures were effective as of June 30, 2012.

(b) Changes in internal control over financial reporting.

There has been no change in our internal control over financial reporting that occurred during our last fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

#### **PART II - OTHER INFORMATION**

#### Item 1. Legal Proceedings

The information below describes new proceedings or material developments in proceedings that we previously reported in our annual report on Form 10-K for the year ended December 31, 2011.

*Grace Energy Corporation Matter.* In 1997, Grace Energy Corporation (Grace Energy) sued subsidiaries of Kaneb Pipeline Partners, L.P. (KPP) and Kaneb Services LLC (KSL and collectively with KPP and their respective subsidiaries, Kaneb) in Texas state court. We acquired Kaneb on July 1, 2005. The complaint sought recovery of the cost of remediation of fuel leaks in the 1970s from a pipeline that had once connected a former Grace Energy terminal with Otis Air Force Base in Massachusetts (Otis AFB). Grace Energy alleges the Otis AFB pipeline and related environmental liabilities had been transferred in 1978 to an entity that was part of Kaneb's acquisition of Support Terminal Services, Inc. and its subsidiaries from Grace Energy in 1993. Kaneb contends that it did not acquire the Otis AFB pipeline and never assumed any responsibility for any associated environmental damage.

In 2000, the court entered final judgment that: (i) Grace Energy could not recover its own remediation costs of \$3.5 million, (ii) Kaneb owned the Otis AFB pipeline and its related environmental liabilities and (iii) Grace Energy was awarded \$1.8 million in attorney costs. Both Kaneb and Grace Energy appealed the final judgment of the trial court to the Texas Court of Appeals in Dallas. In 2001, Grace Energy filed a petition in bankruptcy, which created an automatic stay of actions against Grace Energy. In September 2008, Grace Energy filed its Joint Plan of Reorganization and Disclosure Statement.

The Otis AFB is a part of a Superfund Site pursuant to the Comprehensive Environmental Response Compensation and Liability Act (CERCLA). The site contains a number of groundwater contamination plumes, two of which are allegedly associated with the Otis AFB pipeline. Relying on the final judgment of the Texas state court assigning ownership of the Otis AFB pipeline to Kaneb, the United States Department of Justice (the DOJ) advised Kaneb in 2001 that it intends to seek reimbursement from Kaneb for the remediation costs associated with the two plumes. In November 2008, the DOJ forwarded information to us indicating that the past and estimated future remediation expenses associated with one plume are \$71.9 million. We reached an agreement to settle the claims of the United States government with respect to the Otis AFB pipeline and to resolve the underlying dispute between Kaneb and Grace. The settlement was approved by the United States Bankruptcy Court for the District of Delaware and a consent decree was entered by the United States District Court for the District of Massachusetts. Pursuant to the terms of the settlement, we paid approximately \$13.1 million to the United States government in July 2012 and received releases of claims from various private parties and a covenant not to sue from the United States government. In connection with the settlement, we recognized a gain of \$28.7 million during the second quarter of 2012.

Pipeline and Hazardous Materials Safety Administration Matter. In April 2010, representatives from the Pipeline and Hazardous Materials Safety Administration (PHMSA) conducted an on-site inspection at NuPOP's Wichita, Kansas facilities. On April 21, 2011, NuPOP received a notice of probable violation alleging that it may have violated certain regulations relating to release reporting, corrosion control and record keeping. NuPOP contested the allegations, and on December 29, 2011, PHMSA issued an order with a \$101,200 penalty. NuPOP petitioned PHMSA for reconsideration, and on June 14, 2012, PHMSA denied the petition and affirmed its prior order requiring that NuPOP pay a penalty of \$101,200. NuPOP paid the \$101,200 penalty in July 2012.

### Item 6. Exhibits

Exhibit Number	Description
10.01	5-Year Revolving Credit Agreement, dated as of May 2, 2012, among NuStar Logistics, L.P., NuStar Energy L.P., the Lenders party thereto and JPMorgan Chase Bank, N.A., as Administrative Agent, Suntrust Bank, Mizuho Corporate Bank, Ltd., as Co-Syndication Agents, and Wells Fargo Bank, National Association, Barclays Bank PLC, as Co-Documentation Agents, and J.P. Morgan Securities LLC, Suntrust Robinson Humphrey, Inc., Mizuho Corporate Bank, Ltd, Wells Fargo Securities, LLC, and Barclays Bank PLC as Joint Bookrunners and Joint Lead Arrangers (incorporated by reference to Exhibit 10.01 of NuStar Energy L.P.'s Current Report on Form 8-K filed May 8, 2012)
10.02	Letter of Credit Agreement dated as of June 5, 2012 among NuStar Logistics, L.P., NuStar Energy L.P., the Lenders party thereto and Mizuho Corporate Bank, Ltd., as Issuing Bank and Administrative Agent(incorporated by reference to Exhibit 10.01 of NuStar Energy L.P.'s Current Report on Form 8-K filed June 12, 2012)
10.03	First Amendment to 5-Year Revolving Credit Agreement, dated as of June 29, 2012, among NuStar Logistics, L.P., NuStar Energy L.P., JPMorgan Chase Bank, N.A., as Administrative Agent and the Lenders party thereto (incorporated by reference to Exhibit 10.01 of NuStar Energy L.P.'s Current Report on Form 8-K filed July 6, 2012)

Less: Interest capitalized		(4,114)		(5,388)		(3,701)		(1,650)		(5,108)		(5,995)		
Total earnings	\$	(143,439)	\$	350,021	\$	350,167	\$	337,175	\$	369,120	\$	241,311		
Fixed charges:														
Interest expense (a)	\$	45,573	\$	82,758	\$	77,343	\$	78,622	\$	92,971	\$	77,584		
Amortization of debt issuance costs		1,089		1,738		1,118		910		815		1,030		
Interest capitalized		4,114		5,388		3,701		1,650		5,108		5,995		
Rental expense interest factor (b)		11,747		23,336		21,228		21,599		15,065		6,985		
Total fixed charges	\$	62,523	\$	113,220	\$	103,390	\$	102,781	\$	113,959	\$	91,594		
Ratio of earnings to fixed charges		(c)		3.1x		3.4x		3.3x		3.2x		2.6x		

- (a) The "Interest expense, net" reported in NuStar Energy L.P.'s consolidated statement of income for the six months ended June 30, 2012 includes investment income of \$0.5 million.
- (b) The interest portion of rental expense represents one-third of rents, which is deemed representative of the interest portion of rental expense.
  - (c) For the six months ended June 30, 2012, earnings were insufficient to cover fixed charges by \$77.9 million. The deficiency included the effect of a \$266.4 million pre-tax impairment loss resulting from the write-down of the carrying value of our long-lived assets related to our asphalt operations, including fixed assets, goodwill, intangible assets and other long-term assets.

#### CERTIFICATION PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002

#### I, Curtis V. Anastasio, certify that:

- 1. I have reviewed this quarterly report on Form 10-Q of NuStar Energy L.P. (the "registrant");
- 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- 4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e)) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- 5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

- 4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e)) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- 5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
