#### NuStar Energy L.P. Reconciliation of Non-GAAP Financial Information Related to the Quarter Ended December 31, 2014 (Unaudited, Thousands of Dollars, Except Unit and Per Unit Data)

NuStar Energy L.P. utilizes financial measures, earnings before interest, taxes, depreciation and amortization (EBITDA) from continuing operations, distributable cash flow (DCF) from continuing operations, DCF from continuing operations per unit, adjusted net income and adjusted net income per unit (EPU), which are not defined in U.S. generally accepted accounting principles (GAAP). Management uses these financial measures because they are widely accepted financial indicators used by investors to compare partnership performance. In addition, management believes that these measures provide investors an enhanced perspective of the operating performance of the partnership's assets and the cash that the business is generating. None of EBITDA from continuing operations, DCF from continuing operations, DCF from continuing operations per unit, adjusted net income and adjusted EPU are intended to represent cash flows from operations for the period, nor are they presented as an alternative to net income or income from continuing operations. They should not be considered in isolation or as substitutes for a measure of performance prepared in accordance with GAAP. For purposes of segment reporting, we do not allocate general and administrative expenses to our reported operating segments because those expenses relate primarily to the overall management at the entity level. Therefore, EBITDA reflected in the segment reconciliations exclude any allocation of general and administrative expenses consistent with our policy for determining segmental operating income, the most directly comparable GAAP measure.

1. The following is a reconciliation of income (loss) from continuing operations to EBITDA from continuing operations and DCF from continuing operations:

|   | Thr | Three Months Ended December 31, |    |           | Year Ended l  | December 31, |           |
|---|-----|---------------------------------|----|-----------|---------------|--------------|-----------|

| Other items (a)   |     | 11,686                          |    | 315,718   | 19,732        |              | 311,675   |
| Mark-to-market impact on hedge transactions (b)                   |     | 4,399                           |    | (1,816)   | 6,125         |              | (4,197)   |
| DCF from continuing operations                                    | \$  | 108,173                         | \$ | 88,115    | \$<br>405,890 | \$           | 308,877   |
|   |     |                                 |    |           |               |              |           |
| Less DCF from continuing operations available to general partner  |     | 12,766                          |    | 12,766    | 51,064        |              | 51,064    |
| DCF from continuing operations available to limited partners      | \$  | 95,407                          | \$ | 75,349    | \$<br>354,826 | \$           | 257,813   |
|   |     |                                 |    |           |               |              |           |
| DCF from continuing operations per limited partner unit           | \$  | 1.23                            | \$ | 0.97      | \$<br>4.56    | \$           | 3.31      |

(a) Other items for the three months and year ended December 31, 2014 mainly consist of (i) a net increase in deferred revenue associated with throughput deficiency payments and construction reimbursements and (ii) a lower of cost or market adjustment of \$3.8 million. Other items for the three months and year ended December 31, 2013 mainly consist of (i) a non-cash goodwill impairment charge totaling \$304.5 million and (ii) an increase in deferred revenue associated with throughput deficiency payments and construction reimbursements received in the period.

(b) DCF from continuing operations excludes the impact of unrealized mark-to-market gains and losses that arise from valuing certain derivative contracts, as well as the associated hedged inventory. The gain or loss associated with these contracts is realized in DCF from continuing operations when the contracts are settled.
